

SHUFFLEBOARD

THE GAME

Two teams take turns sending the biscuits down to the scoring triangle at the opposite end of the court until all 8 biscuits have been played. This is one “frame.” A full match is 8 frames.

SCORING

A scoring biscuit can't touch ANY line, not even a little. Any disk that lands in the kitchen is worth -10 points. Add up points at the end of each frame and the team with the most points at the end of the match wins!

NEVER WALK ON THE COURTS!
